AKKU VISION LAUNCHES B2B SHOP

As of 23.09 September, Akku Vision has opened their new B2B shop on the www.e-bike-vision.de homepage. The shop is open for dealers in Germany and Austria and with a few clicks availability, prices and ordering of ebike batteries are conveniently at hand for the customer.

"E-commerce is becoming a vital part of our business and now the dealer can access our shop and place their order 24H any day. We hope our customers will welcome this new buying portal and it will add to our continuous sales growth of replacement batteries". Mr. Daniel Maiberger, CEO.

About Akku Vision

Akku Vision was established in 2011 and started developing ebike replacement batteries under the brand name E-Bike Vision compatible to leading drive systems such as Bosch, Yamaha and Panasonic. Akku Vision has achieved a continuous strong aftermarket sales growth over the years and in 2021, own production facilities are being established in Haibach. That means R&D, service, QC, warehouse, administration and fully automated battery assembly all in a 5.000 sqm building. Akku Vision offers Made in Germany batteries for Aftermarket as well as OEM ebike battery solutions in full compliance to ISO 9001:2015 and 14001 Certifications.
